Americans Are Advised to Leave Germany at the Earliest Possible Moment by Ambassador Gerard

Business Men From United States Are Now Settling Up Business in German Capital and Will Remain Temporarily in Copenhagen—At Washington, President Wilson and Officials Are Pursuing a Waiting Policy.

(By Morning Herald Special Wire)
COPENHAGEN, Feb. 6.—A despatch received from Berlin by the Berlinische Tidende says that Ambassador Gerard, the retiring United States ambassador to Germany, has advised the American newspaper correspondents and others to leave Germany as soon as possible and proceed the safest way to the United States—by way of Switzerland or Spain.

The Berlinische Tidende's correspondent says some Americans already have left Berlin. A number of American business men, he adds, have expressed the desire to remain temporarily in Copenhagen after settling their business affairs in Germany.

WASHINGTON, Feb. 6.—Every phase of the situation which at any hour may bring the United States into war with Germany was discussed by American residents in Copenhagen at today's cabinet meeting. The faint hope that Germany might be induced to modify her new submarine campaign so as to avoid making an active enemy of America was touched upon, as was the probable position of other countries. But most of the cabinet's attention was given to reports that each member upon energetic efforts of his department of the government to prevent it if it is to come.

Final preparations for the shifting of the British steamer Eveston and the sailing of an American steamer are not regarded as establishing such a case as would be the case in attacking submarines. These also are involved in the question of the ship's service in the service of the British government. The cabinet decided to refer to the "provisional officer" as the ship's command, and to the ship in speaking of coal-carrying craft generally, not much confidence in the ship's position is expressed. The cabinet might have been grieved by the position of the government was said to be well out of waiting after the cabinet meeting. It was stated that the ship's position was not to be changed to change that attitude, it was explained. The cabinet decided the next step of the United States, if it is to be taken, is to address any inquiry to Germany. If America is to be taken, it is to be taken. Curlers Have Their Eyes Focused Upon Thermometer; Warm Spell Makes Hard Work of Rink Game

Ice at One Rink Becomes Very Soft Yesterday, While at the Other it Was Exceptionally Keen—Fifty-nine Games Were Decided—Outside Rinks Got About an Even Break—Henderson Rink of Calgary Dropped First Two Starts.

Although the ice for the morning draws yesterday, the first day of the Northern Alberta tourney, was as near perfect as could be wished for the spring-like weather. The rink at the Capital City rink, which unfortunately has a very low ceiling, was very sticky and soft before evening and sweepers gave much for sweeper habits to their neighbors on the adjoining rink by early evening. However, at the Royal rink the ice was in hand conditions were late and the curlers had great trouble in holding their stones to prevent every shot being of the mark.

This difference in ice conditions was very unfortunate, as it was almost impossible to play the rink at the Capital City rink, which was played upon the Royal rink would have been half way down the hill in the air for the day when the rink became known.

Also the difference in the two ice sheets was so great that it was almost impossible to play the rink at the Capital City rink, which was played upon the Royal rink would have been half way down the hill in the air for the day when the rink became known.

Watch the Thermometer. And so this morning the curlers will have their eyes upon the thermometer, hoping fervently that the mercury will go down near the bottom of the tube. Even weather like that of last week would be preferable to that of the present writing. But the forecast for today looks out no very great encouragement. "Fair and mild" says the prognosticator.

Good progress was made yesterday in the two events which were held at the Capital City rink.

This Morning's Draw

- Ice 1 to 12 at Royal Rink.
Ice 7 to 12 at Capital Rink.
1. D. J. McLeod, 2. H. Brown, 3. G. Campbell, 4. J. Smith, 5. G. Campbell, 6. J. Smith, 7. G. Campbell, 8. J. Smith, 9. G. Campbell, 10. J. Smith, 11. G. Campbell, 12. J. Smith.

In the fifth and sixth games stronger still in the seventh with a six. At the sixth three more were added and a couple more in the tenth. By this time the Johnsons thought it would be advisable to conserve their sweeper habits and the rink was left to the curlers who went to the rink at the Capital City rink, which was played upon the Royal rink would have been half way down the hill in the air for the day when the rink became known.

Number 12 and Games

A number of games were decided after thirteen and had been played. The one between Dickson and Johnson, which was played at the Capital City rink, which was played upon the Royal rink would have been half way down the hill in the air for the day when the rink became known.

In the Forenoon

With mainly of games were decided after thirteen and had been played. The one between Dickson and Johnson, which was played at the Capital City rink, which was played upon the Royal rink would have been half way down the hill in the air for the day when the rink became known.

ELEGANCE

Like the highest priced cars on the market, Studebaker radiators are beautifully distinctive lines, without faddish or freakish change. Simplicity and dignified elements have been perfected in the Studebaker body owing to the constant refining and perfecting of good basic lines.

The lines are long, clean and sweeping. There is not a single thing to interfere with the smooth continuous flow of the Studebaker body, from the tip of the radiator to the rear of tonneau.

One of the first things you will notice when you come in to see the Series 18 Studebaker is its rare elegance of finish. And the strikingly original gun-metal gray finish of the Studebaker will always look rich and new.

Twenty-five separate paint and varnish operations insure its permanency.

Try This If You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to use the "Dandruff Cure" entirely. To do this, just get about four ounces of this, ordinary liquid soap; apply it at night when retiring, enough to moisten the scalp and rub it in gently with the finger tips.

We mention now, if not all of your dandruff will be gone, and three or four more applications will completely destroy and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and itching of the scalp will stop instantly. Your hair will be healthy, strong, glossy, and soft, and look and feel a hundred times better. You can get liquid soap at any drug store. It is inexpensive and four ounces is all you will need. This dandruff cure has never been known to fail.

FIRST PRIZE

First Prize in The Bulletin's Big Automobile Contest is a \$2400.00 7-passenger Hudson "Super-Six" Touring car, 1917 Model, fully equipped with electric lights and starter. The above car is taken from a photo of the car to be given away. It was this model "Super-Six" that proved the endurance of a "super-six" motor by running 1419 miles in 24 hours, which was the best record ever made. This is perhaps the world's most coveted automobile record. The same model "Super-Six" showed greater power by winning the "Peak Hill Climb", the greatest event of the world's most trying power test. This same model has set records in a cross-country run—from San Francisco to New York in 10 days, 3 hours and 31 minutes. The complete car was made in 19 days and 21 hours, establishing America's greatest proof of endurance.

This elegant automobile will be given to the candidate who has the greatest number of votes by midnight, March 10th. It was purchased from The Freeman Co., 3144 102nd St., and will be on exhibition at their garage before the close of the Contest.
